RAW Dance company
Thursday this week we will be heading into Gayndah for a workshop with the RAW dance company. The workshop will be starting at 9am which means we will need to leave Binjour no later than 8:30am.

RAW dance is a world class organisation that do workshops all over Australia.

The workshop on Thursday is funded through RREAP. We will also see them again next term at our school, which is funded by the North Burnett Shire Council. I am sure the students will love it.

Trivia Night
A great night was had by all on Friday night at our trivia night. Thanks to all those parents and family members that were able to help out on the night. Some really great ‘B’ themed costumes were on show.

QSR
Next term I will be completing our QSR (Quadrennial School Review) this is a four year review of how things have been going at the school, and producing a plan for the next four years. This includes everything from academic targets to mower replacement and everything in-between. I am already compiling all the results and data from the last 4 years for review. I will also be asking for our parents and community feedback in the way of surveys and questionnaires.

Reading over the holidays
Please keep your child reading over the holidays. 15 minutes a day over two weeks is 3 and a half hours of reading. All students will be encouraged to take home some home readers over the holidays.

Swimming term 4
At this stage swimming next term will be run in weeks 8 and 9 everyday instead of 1 day a week for 10 weeks. There are two reasons for this:
1. We miss the cold water
2. Students retain more of what is being taught when they do it everyday.

The students will appreciate missing those first few cold water days.

Cheers Andrew

End of term night
Our end of term night will be on Thursday night at 7pm. All welcome, mums dads uncle aunts etc. Bring a shared plate for sweets. Short and sweet, not a late night.

Staffing
Mr Morris will be here tomorrow so I can have an admin day.

Tuckshop
This weeks tuckshop menu is:
♦ Savoury muffins
♦ can of LOL
♦ a cupcake.
Please make sure money and orders are in by Thursday afternoon.

A BIG Thank-you to all of those involved with the trivia night on Friday night. Nigel and Stephen for their fabulous work as Barmen, and their overall help, Andrew for being our Batman MC, Mrs Meyer for being our Bunny scorer, Dutch our Beautiful Bride, and to all the people that sent in food for Supper and that were able to help out on the night, we sincerely thank-you. And I must make special mention to Fiona and Stephen Meyer who no longer have Children at our school but were still at the hall helping us clean up, and pack up until midnight on Friday night, and also helping deliver cold rooms and stock taking of left overs also - so Thank-you to you both!!

Over the past couple of weeks Julie and Myself have been very busy with the organising of the Bike rally, the pie drive and also the Trivia night. These jobs take many, many hours an days of hard work, setting up, cleaning up, and just general organising of people and making lots of phone calls. If you would like to become more involved with these processes please let us know, or come along to our meetings and voice your opinion. Many hands make light work and in such a small community we all need to band together, as we are doing this for our children and their school.

Our major purpose for fundraising at the moment is to ensure that we will have enough funds to have a great Centenary next year - if you have some new ideas, or would like to run a fundraiser on the P&C's behalf please come forward and let us know. New idea's are always welcomed!!!

On the 'End of Term Night' this term we will be selling off our excess softdrink at cost if anyone is interested - please bring the correct money with you, we have Coke, Diet Coke and Coke Zero for $20 per carton (30 pack, only 66c per can), then we have various Schweppes at $8 per carton (18 pack) Lemonade, Lemon solo, lemon/lime solo, Raspberry, and sunkist

Thanks, Jasmine

**Brain Teaser**

Below is a very special grid, around each shaded number are 8 white squares. However, each white square should have a number from 1 to 7. Once filled in, these 8 numbers will sum to the shaded number. In addition, once completed correctly, no row nor column will contain a duplicate number within a white square. For example, the top row may be 5 6 4 2 3 1 7, etc.

Place the digits from 1 to 9 in each closed area so that the sum of the digits in each complete circle is the same. 1 has already been placed.
