From the Principal’s Desk

From the classroom
Welcome to week 8. This term has 10 weeks so not long now until the end of term night. Please make sure your child is still learning their poems. Some of them are doing a great job and almost know them by memory. This week we have had a number of students reach over 40 arm bands which was great for those students, I am sure given the numbers that each and every students will get there by the end of the term.

In learning
We are still working hard on grammar and punctuation, which is very important. We are also working on practicing reading for comprehension. In maths we are looking at problem solving and some of the strategies we can use to work out answers. The 3 strategies we are practicing include; guess and check, trial and error and draw a picture. The students are working on using the important information they are given to solve a variety of problems. We are also working on division, squaring numbers and the square roots of numbers.

Staffing
Mrs Goldie is still away for the rest of the week at this stage as she has acute Labrynthitus which makes her dizzy and unable to hear from her left ear. She is going to the Doctors again today to see what’s going on. I myself will be away on Friday as I will be speaking at the Mundubbera TedX event. Miss Burt will be here on Friday.
