School update

Last week was an extremely busy week. On Tuesday we attended the NAIDOC week activities at Burnett State College. The students had a fun filled and educational day. They saw Aboriginal dancers, played some special games, did some beading, and ate some real Australian food (Emu, Kangaroo). They also listened to a great didgeridoo player and saw some of the Burnett State School dancers. We ran out of time to get to the Boomerang area so our students brought them back to school to decorate theirs.

On Wednesday we travelled to Mundubbera to see the Deadly Australians show with the Mundubbera Kindy which was very good. The students learned a lot about some of the less cuddly animals we have in Australia.

On Thursday we had the annual small schools athletics carnival, although it was a little cold in parts it was a great day. It is really good to see all of the students having the confidence to have a go at everything. Thank you to all those parents who were able to get there for some or all of the day. I know the students really appreciate it.

This week in school our students are looking at letter writing. We are also working on cultural writing and traditional stories. In Mathematics we are continuing with our tables and basic number facts. Our middle group is working on +, -, % and X and how these can used to check answers to algorithms. Home readers and spelling lists are continuing.

School Beanies

Winter has come with a vengeance this week and some students are feeling the cold. We have school beanies available which cost of $5 each.

Tuckshop

McGoldie Meal Deals
$4.50
Choose option A or B
A) Meat Pie, popper and a kinder surprise
B) Sausage Roll, popper and a kinder surprise
Please advise option A or B when paying.
Just quick note to let everyone know what we are learning this term.

**ENGLISH**  We will be looking at pulling apart narrative texts to create an informative text. For the next two weeks we are studying Stellaluna and also reading informative texts about bats. Spelling will continue with the C2C program.

**MATHS**  We will start learning about length and measurements, using rulers and other units of measurements to investigate length. We are also starting to use the i-Pad on Monday and Tuesdays for wind down consolidation learning. We also will be continuing with money, addition and place value.

**HISTORY**  We are studying Families and how they have changed over time. We will have a trip to the local museum later in the term and see how “tough” our grandparents really did do it.

**ICT**  We are going to start with our computer studies. Over the next 10 weeks we are learning to access the computer and a search engine and use a Word document to produce an assessment piece for English.

*Cheers Angela*
Gayndah junior touch starts again on Wednesday July 22 at the sports grounds at 4:00pm.
Primary school students turning 6 and up as well as year 7 and 8 students who are NOT playing senior touch are eligible.
For more information contact Leisa on 0402869032 or Maria on 0400844681.

People who say it can’t be done should not interrupt those who are doing it.

I dig out tiny caves, and store gold and silver in them. I also build bridges of silver and make crowns of gold. They are the smallest you could imagine.
Sooner or later everybody needs my help yet many people are afraid to let me help them. Who am I?

People who say it can’t be done should not interrupt those who are doing it.
MOVIES IN THE HALLS
on the big screen
