From the classroom
This week in mathematics we are working on money, all about money. The younger students are learning how to represent money in multiple ways, and how to work out how much change they should get or give when buying things. The older ones will be looking at simple budgets, why we use budgets. They will be creating simple financial plans. Its important for our children to learn about money as it is an important part of life. We are also talking about debit cards and credit cards, loans and interest. We are continuing to look at persuasive texts and how to structure it correctly. Our students will begin this week to write their own persuasive text on a topic of their choice.

Staff whereabouts
Next week I will be away on Wednesday and Thursday at AFL in Gympie. On Wednesday Mrs Staib will be here and on Thursday Mr Van Elst will be here for the day. There is no school on Friday next week as this is Good Friday.

This Friday I will be in Gayndah for the Soccer, netball and Rugby League trials. As this is my admin day Mrs Moorrees will be as usual.

Social and emotional Learning
Over the last couple of weeks we have had a number of visitors into the school for a variety of reasons. Its been great to hear some of the comments they have made in relation to the school and its students. Such as how well the older students look after the younger ones. How independent they are when it comes to class work and games in the play ground. All very positive.
This week we have started our new literacy focus. For the next 6 (school weeks) we will be studying narrative books and creating new episodes to add to the books. Today we read Little Cat and the Big Red Bus.

This week in spelling we are learning contractions, please find in their homework folder a list of spelling words that you can practice and study with your child.

Students will also be bringing home part-text scripts from the books we are reading in class and sentence strips to rearrange into order. Words have been cut up to show the spelling patterns in words learnt during class. These will be swapped as we learn new text scripts in class.

In Maths we are learning number facts, how to write numbers and their names and solving mathematical equations. Preps are looking at adding on from numbers and Grade 2’s are learning to add into the thousands. We are also learning about 3D shapes, their names and their properties.

Cheers Angela, Madonna and Karen
Mundubbera and District Soccer Club Inc

Sign On & Come & Try Day
Saturday April 16th from 9 am @ Mundubbera State School
Membership fees for 2016 are $25 per player
Annual General Meeting will be held at the same time. All committee positions will be declared vacant at this meeting
Can you HELP OUT Coaching?? The club are also looking for coaches. You don't have to be a soccer-star to coach; just have the enthusiasm to assist the kids to learn a few drills and skills.

For more information contact Kt Anbeek on 0448 271 303
