From the Classroom

This week we are continuing to learn our poetry for the end of term night, most students are almost there.

In Mathematics we are working on angles, students should be able to find the missing angles using the angles they have been given and the knowledge they know about angles such as right angles, straight line and opposite angles. The younger students are looking at partitioning numbers, for example 456 is made up of 400 + 50 + 6. This knowledge is useful when adding and subtracting numbers.

In Literacy we have been reading the Novel Rowan of Rin. We finished the book yesterday, all the students seemed to enjoy it and looked forward to hearing the reading each day. The students have been writing posts on their opinion of the story which has been something different. The students enjoy working on the computers.

Musicom

Tomorrow we will be taking the whole school into Gayndah for the Three Musketeers Musical at the town hall. All staff and students will be attending so if you need to reach us for any reason please call the school Mb: 0429124897 the bus will be picking us up at 10am and returning to school at approx. 2:15 pm.

Keep those kids reading

Melbourne researchers have proven what parents have intuitively known all along - the more often you read to your children from an early age, the greater the positive effect on their reading and thinking skills.

Teacher whereabouts

On Thursday and Friday this week I will be attending a Principals conference in Gladstone. Mrs Staib will be here on Thursday.

Reading news

Melbourne Institute of Applied Economic and Social Research has not only proven a causal effect between the frequency of reading to a child and his or her development, but have also for the first time measured the benefits. Children four to five years old who are read to three to five times a week have the same reading ability as children six months older (who are read to only twice or less a week). Reading to children six to seven days a week puts them almost a year ahead of those who are not being read to. It was also found that reading to small children has a positive effect on the development of numeracy skills,

**FREE DRESS DAY THIS FRIDAY**

This week we have started our new book by the author Ahn Do. There are five books in the series and they all centre around a main character Weir Do. The class have really enjoyed reading a chapter each morning and look forward to the adventures that Weir gets himself into.

We have been practicing our sentence writing and focusing on capital letters and full stops. We are also looking at why certain words need a capital letter in the middle of a sentence. Today we had a discussion about names that could be either a boy or a girl. We came up with a few... Chris, Aidenne, Peter/Peta, Jessie so for homework the p-2's were asked to have a discussion around the dinner table about any names their family can think up (NO GOOGLE) we also discussed what it means when the sky is a deep orange/pink colour in the morning? Lots of different questions being asked in the classroom this week!

We are looking forward to the musical tomorrow, they always do a fantastic job, so I am sure that we will have a ball.

Cheers Angela, Madonna and Karen.
Mundubbera Blue Light Association
Management Committee
Is holding a meeting at the Mundubbera School Library
On Tuesday 7th June @ 7pm.
Everyone is welcome to come.

Phone Valerie Zipf on 0432 788 803 or Lisa Whelan if you have any questions
